

ZEHRA SADAT

Software Engineer — Frontend & Full-Stack Development

Istanbul, Türkiye | zehrasdt80000@gmail.com | +90 536 721 99 87 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Software developer focused on frontend development and modern web technologies, with experience building responsive, user-focused web and mobile applications. Skilled in modern JavaScript frameworks, UI/UX design, and database-driven applications, with a strong understanding of clean code principles, frontend architecture, and responsive design. Comfortable working across the full stack, from Figma designs to production-ready interfaces.

TECHNICAL SKILLS

Frontend Development: JavaScript, TypeScript, HTML5, CSS3, React, Angular 19, WordPress

UI/UX Design: Figma, Wireframing, Prototyping

Mobile: Flutter, Dart

Backend & Database: Node.js, Firebase (Auth, Firestore)

Tools: GitHub, VS Code, Docker, Claude (Anthropic)

Soft Skills: Fast Learner, Problem Solving, Team Collaboration, Adaptability, Responsible

PROJECTS

GuideIQ — AI Assistant for University Students

React, Vite, JavaScript, Firebase

- Developed an AI-powered platform to assist university students with academic guidance and information management using React, Vite, HTML, JavaScript, and CSS, with backend functionality, authentication, and database operations built on Firebase.
- Build responsive and user-friendly interfaces following modern web development practices.

University Registration System

Angular 19, TypeScript, Laravel, PHP, MySQL

- Designed the UI/UX from scratch, including layout and visual design.
- Developed the system using Angular 19, TypeScript, HTML, and CSS.
- Built responsive interfaces for student registration and administrative workflows.
- Applied component-based architecture and structured data handling.

Fatura — Invoicing App

Flutter, Dart, React, Node.js, MySQL

- Built a full-stack invoicing app for business owners — a Flutter mobile client, a React admin dashboard, and a shared Node.js + MySQL backend.
- Designed a custom dark navy/teal UI system and implemented client, invoice, and employee management workflows end to end.

Flight Booking System

MySQL, SQL

- Developed a flight booking management system using MySQL and SQL.
- Designed relational databases for flights, reservations, and user records.
- Implemented booking and data management operations through structured database design.

HadethIbina Website

WordPress, Figma

- Converted a UI/UX design created in Figma into a fully functional and responsive WordPress website, customizing layouts, pages, and visual components to match the original design.

EDUCATION

Software Engineering, Üsküdar University

2022 – 2026

Istanbul, Türkiye

GPA: 3.51 / 4.0

British International School

2008 – 2020

Jeddah, Kingdom of Saudi Arabia
